PROFILE

Front-end developer with 2 years of experience in HTML, CSS, JavaScript, React.js, WordPress, and Shopify. Skilled in building responsive, user-friendly websites using MUI, Chakra UI, Elementor, Gutenberg, Beaver, and Divi. Experienced in Shopify theme customization, Liquid coding, and creating custom WooCommerce stores. Proficient in React Hooks, Routing, and API integration to deliver modern, scalable web solutions.

EXPERIENCE

FrontEnd Developer at HandtechSolution
Oct 2023   Present

- Developed responsive websites using HTML, CSS, JavaScript, and Bootstrap for clients across various industries including real estate, eCommerce, IT, and design services.

- Built and maintained React.js applications, including an inspection platform, an eCommerce web app, and a coaching platform utilizing React Hooks, Routing, and State Management for scalable and maintainable solutions.

- Developed responsive and accessible user interfaces using Material UI (MUI) and Chakra UI, enabling rapid development of consistent, scalable components aligned with modern design standards.

- Focused on understanding client requirements to design and implement interactive user interfaces and ensure a smooth user experience across all devices.

- Continued working on WordPress and Shopify development, including custom themes, Shopify Liquid programming, and third-party app integration.

CMS Developer at Sactosol Technologies
Sep 2022   Oct 2023

- Developed WordPress websites using builders like Elementor, WPBakery, Beaver Builder, and Divi; gathered client requirements to create tailored solutions, customized themes, and integrated third-party plugins for enhanced functionality.

- Built end-to-end eCommerce solutions with WooCommerce, including payment gateway setup, shipping method configuration, live shipping rate integration, and print label automation—delivering seamless, conversion-focused user experiences.

- Worked on Shopify website development, creating interactive and brand-aligned storefronts using custom themes; implemented payment gateways, dynamic sections, and UI & UX enhancements.
